

**BATCH PUMP SYSTEM FOR ON-LINE/OFF-LINE COMPRESSOR CLEANING**

**BP 100 to 1500  
GAS TURBINE ENGINES**

for engines in the range of 0.5 – 250MW output

**PRODUCT DESCRIPTION**

The BP RANGE is designed for industrial Gas Turbines and is available in static and mobile forms.

The BP RANGE is fully self-contained and simple to operate. The small footprint allows for installation into limited space.

Using proven technology the BP RANGE offers the operator simple and effective control of gas turbine compressor cleaning. The flexibility of the system allows the operator to change chemical ratios and wash & rinse cycle volumes etc.

The BP RANGE can serve multiple gas turbine wash nozzle systems for both online and offline washing.

Every BP RANGE wash delivery system is fully factory tested and is designed for quick and easy installation.

The BP RANGE is available with a number of standard options and can be customised to suit your specific requirements.

The BP RANGE is available for use in hazardous areas such as offshore and onshore oil and gas facilities.

Rochem is an approved ISO9001: 2000 supplier

**STANDARD FEATURES**

- Stainless steel tank with level indicator
- Stainless Steel piping
- Control Panel
- Single power connection
- Accurate mixing of chemical
- Wash Injection Pump,
- Temperature Indicator
- Pressure Indicator
- Painted Fork-liftable base
- Manual Chemical Pump
- Self purging using compressed air
- Full Operating Manual and Data book
- Certificate of Conformity
- Proven technology & design
- Simple to install, operate and maintain
- Minimum operator input time
- No chemical handling
- Suited to both on-line and off-line compressor cleaning

**OPTIONAL FEATURES**

- Ex version for Hazardous areas
- Tropicalized pump motor
- Tank Heater
- Automatic operation
- Remote control
- Mobile operation
- Cold Weather operation
- Thermal Insulation

**TECHNICAL DATA**

**Finish**

Hot dip galvanise  
(Other finishes available upon request)

**Power Supply**

380-415, 50/60Hz, 3ph  
(Other voltages available upon request)
