

PROCESS COMPRESSOR CLEANING SYSTEMS

PC200

PROCESS COMPRESSORS

PRODUCT DESCRIPTION

The PC200 is designed for industrial process compressors and is available in static and mobile forms.

The PC200 is fully self contained and simple to operate.

Using proven technology the PC200 offers the operator simple and effective control of process compressor cleaning.

The PC200 can serve multiple process compressor wash nozzle systems for both online and offline cleaning.

Every PC200 wash delivery system is fully factory tested and is designed for quick and easy installation.

The PC200 is available with a number of standard options and can be customised to suit your specific requirements.

The PC200 is available for use in hazardous areas such as offshore and onshore oil and gas facilities. See PC200~EX datasheet.

Rochem is an approved ISO9001:2000 supplier

STANDARD FEATURES

- Stainless steel tank with level indicator
- Stainless Steel piping
- Control Panel
- 12kW Tank Heater
- Wash Injection Pump, 3.0kW
- Temperature Indicator
- Pressure Indicator
- Stainless Steel chemical drum suction tube
- Adjustable wash parameters
- Full Operating Manual and Data book
- Certificate of Conformity
- Proven, compact design
- Simple to install and maintain
- Minimum operator input time
- No chemical handling
- Suited to both on-line and off-line process compressor cleaning

OPTIONAL FEATURES

- Tropicalized pump motor
- Automatic operation
- Remote control
- Mobile operation
- Cold Weather operation
- Thermal Insulation

TECHNICAL DATA

Length
1500mm (59 inches)

Width
700mm (27.6 inches)

Height
1635mm (64.4 inches)

Pressure Range
0-75Barg

Tank Capacity
200 litres (52.7 gallons)

Power Supply
380-415, 50Hz, 3ph
(other voltages available upon request)
